

Actual-size print test

Print this page at 100%, then measure the lines below with any ruler.

1. Print at 100% (Actual size)

In the print dialog set Scale to 100% / Actual size - never "Fit to page" or "Shrink to fit".

2. Measure these rulers

Metric - this line is exactly 100 mm (10 cm):

Imperial - this line is exactly 4 inches:

3. A real barcode, exactly sized

This EAN-13 is exactly 60 mm wide - scan it, or measure it against the rulers.

If the 100 mm line measures 100 mm, your printer is at true scale - and every LabelCraft label prints exact, to ± 0.1 mm.

Sample label on the page: 57.15 × 31.75 mm.
